### CLINICAL EXPERIENCE

---

**Licensed Psychologist** Jan 2012- Pres

Asheville Integrated Behavioral Health

Asheville, NC

Clinical psychologist in private practice, providing evidence-based treatments to adults. Psychotherapy modalities include: Cognitive Behavior Therapy, Acceptance and Commitment Therapy, Motivational Interviewing, mindfulness-based interventions, and cognitive rehabilitation techniques. Clinical practice also includes neurofeedback and biofeedback (HRV, GSR, HEG). Neuropsychological Assessment services also available. Primary clinical population includes those with chronic medical illnesses, chronic pain, health related anxiety, neurocognitive impairments, as well as mood and anxiety disorders and substance abuse. Currently on insurance panels for Blue Cross Blue Shield, Medicare, Aetna, MedCost, and Tricare.

**Licensed Psychologist** Nov 2012 –Jun 2016

Blue Ridge Neuropsychological Associates

Asheville, NC

Clinical psychologist conducting in-depth and brief neuropsychological assessments to various adult patients referred for evaluation of cognitive and personality functioning. Frequently seen disorders include dementia, strokes, traumatic brain injuries, neurodegenerative disorders, as well as chronic health concerns. Currently on insurance panels for Blue Cross Blue Shield, Medicare, and Medicaid.

**Licensed Psychologist**

Jan 2012 – April 2013

Cognitive Behavioral Therapy Center of WNC, P.A.  
Asheville, NC

Clinical psychologist in outpatient group practice, providing evidence based treatments to adults and children. Psychotherapy modalities include: Behavior Therapy, Cognitive Behavior Therapy, Acceptance and Commitment Therapy, Dialectical Behavioral informed therapy, Motivational Interviewing, mindfulness based interventions, biofeedback, and neuropsychological assessment. Principal clinical populations include mood and anxiety disorders, substance abuse, adjustment disorders, marital problems, chronic pain, and neuropsychiatric impairment. **(40 hrs/week)**

**Postdoctoral Fellow (APPIC member)**

Sept 2010 – Sep 2011

Chronic Pain Management Program  
Kaiser Permanente, San Francisco, CA

Postdoctoral fellowship in chronic pain management and health psychology with ethnically diverse patient population in outpatient setting. Primary duties include: weekly day treatment for deconditioned chronic pain patients, weekly psychotherapy/physical therapy groups for chronic pain and migraines, individual and group biofeedback (GSR, EMG, temperature, HRV, HEG, CO<sub>2</sub>), multidisciplinary intakes, clinical hypnosis, relaxation/mindfulness training, and medication management groups. The clinic is multidisciplinary and includes weekly interface with physicians, pharmacists, nurses, physical therapists, acupuncturists, and other support staff. The training program includes weekly didactics on psychophysiology/psychotherapy topics and supervision sessions in order to meet all state licensure requirements. The program is currently waiting for its APA accreditation evaluation.

Orientation: Cognitive-Behavioral Therapy

**Supervisor: Grace Chow, Ph.D., Licensed Clinical Psychologist**

**(40 hrs/wk; 1950 Hrs Total)**

**RESEARCH EXPERIENCE**

---

**Dissertation Research Project: “The Convergent Validity of New Executive Function Scales for the Category Test in a Chemically Dependent Sample”**

Pacific Graduate School of Psychology, Palo Alto, CA 2006-2008  
Research evaluating the validity of new executive function scales developed for the Category Test by comparing them with well established executive measures. The sample included recently detoxified male alcoholic and polysubstance abusers.

Final Defense Completed: June 9, 2008  
**Committee: Amy Wisniewski, Ph.D., Chair**  
**James Moses, Ph.D.**  
**Rowena Gomez, Ph.D.**

**Member, Neuropsychology Research Group**

Pacific Graduate School of Psychology, Palo Alto, CA 2005- 2008  
Principle Investigator: Amy Wisniewski, Ph.D.  
Discuss research methodology and analyze scientific articles regarding gender, acculturation, and ethnicity’s effects on executive functions. Perform literature searches, plan a cross-cultural neuropsychological study, recruit participants, administer neuropsychological tests batteries, and perform data analysis. **(550 hrs total)**

**Clinician, Neuropsychological Testing Associate**

Posit Science, San Jose, CA 2006  
Principle Investigator: Henry Mainke, Ph.D.  
Employed as a neuropsychological testing clinician in a study examining computer software intending to improve memory in non-clinical adults above the age of 65. Administered and scored an extensive neuropsychology battery, re-checked other clinicians’ work, entered this information into a database, and assessed the suicidality and anxiety of participants. **(250 hrs total)**

**Research Assistant, Neuropsychology and Substance Abuse**

Pacific Graduate School of Psychology, Palo Alto, CA 2004-2005  
Principle Investigator: Amy Wisniewski, Ph.D.  
Created data variable dictionary regarding substance abuse and neuropsychological test performance, entered data and maintained database, scored certain neuropsychological tests, analyzed data using SPSS, and created and presented a poster presentation. **(350 hrs total)**

**TEACHING EXPERIENCE**

- Teaching Assistant, Statistics II (Graduate)** 2007  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Conduct weekly lab sessions, assist students in understanding statistical concepts, grade papers and exams, and provide feedback to students.  
**Supervisor: Rowena Gomez, Ph.D., Assistant Professor**
- Teaching Assistant, Statistics I (Graduate)** 2007  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Conduct weekly lab sessions, assist students in understanding statistical concepts, grade papers and exams, and provide feedback to students.  
**Supervisor: Rowena Gomez, Ph.D., Assistant Professor**
- Teaching Assistant, Research Methods (Graduate)** 2006  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Conduct weekly lab sessions, assist students in developing research project proposals, grade papers and exams, and provide feedback to students.  
**Supervisor: Rowena Gomez, Ph.D., Assistant Professor**
- Teaching Assistant, Psychopharmacology (Graduate)** 2006  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Conduct weekly lab sessions, assist students in developing final papers, grade papers and exams, and provide feedback to students.  
**Supervisor: Amy Wisniewski, Ph.D., Professor**
- Teaching Assistant, Psychopathology I (Graduate)** 2005  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Assist in creating class syllabus, designed homework assignments, and developed two equivalent forms of the final exam.  
**Supervisor: Becky Jackson, Ph.D., Assistant Professor**
- Tutor, Statistics and Research Methods (Graduate)** 2004-2008  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Assist students with statistical concepts and research methodology to prepare them for both course exams and the research comprehensive exam.

**OTHER EXPERIENCE**

- Student Assistant for PGSP's APA Accreditation Self-Study** 2005  
 Pacific Graduate School of Psychology, Palo Alto, CA  
 Collected and organized necessary supporting documents for APA self-study. Edited and verified information in primary document. Performed data analyses for primary document.  
**Supervisor: Peter Goldblum, Ph.D., Professor; Director of Clinical Training (175 hrs total)**

**PROFESSIONAL ASSOCIATIONS**

- American Psychological Association
- Association of Contextual Behavioral Science
- International Neuropsychological Society
- North Carolina Psychological Association
- Western North Carolina Psychological Association
